Message To Renegades

Good to see so many of you at the last couple of shows, the Renegades have been very well represented. Well Done.

We had a good number of cars at Worthing on Sunday 26th July 2009, everybody kicking back soaking up the atmosphere and questions from the public about our cars. I was sat at the back of the convoy cruising down to Worthing and what a sight, seeing all your cars snaking along the tarmac doing what Renegades do best. Cruising and having a good time. Enough said

Tally Ho Chcks Away!!!!

Waterlooville Show – Saturday 4th July

Yet again an early start for the Renegades meeting at the usual place on top of Ports-down Hill. Nice leisurely cruise to Waterlooville where we set up just by the Heroes pub. Very nice show this as every one is happy, boys with the cars and girls with all the lovely shops to look around. First order of the day was breakfast and after finding a nice café that we could all sit outside, the heavens decided

to open and so breakfast was a wash out!! Then the sun came out and shone for the rest of the day.

It was a fantastic turn out of not only Renegades but the public too and members had pleasure in talking about their cars. Especially H as this was his first show with his own car. However a little issue with the gear shift meant he couldn't get into reverse but Pete was there to save the day and managed to do a temporary fix to enable us to get home.

The time came for the mayor of Havant Council to award the trophies. Renegades were very lucky this year as out of the 4 trophies 2 were won by members of our club. Pete won best american and Martyn won best dressed to style of car as he was kitted out in his police uniform.

Refurb of Ford Dayvan by Mummy Jan & Steve

I have been driving past this Dayvan parked up in a drive way for about 4 years now. It was all covered in a green moss like substance and never seemed to move so one day Steve decided to go and knock on the door of the owner and try and get some history of it. Apparently it had been sitting there since 2003 and had not been started since being parked up all those

Arriving at her new home

A warm welcome by all

Full of rubbish.....

Everywhere!!!

Pete gets to work

As if by magic !!

We are planning to take Polly to the Nationals in Ipswich in August however a lot of work is still required. A lot of the rust has been removed and repaired on one side so now the other side needs the same treatment. Bonnet and other places have been repaired and of course that horrible green mossy stuff has been completely washed and polished away. A new carpet has been fitted through out and wood panels have been rubbed down and re-varnished. Other bits and pieces to be done and then to be put through an MOT. Fingers crossed she passes. Will keep you updated on the progress.
